Dear

Changing the Face of our School for the Futures of All

We are a small rural lower school serving a wide catchment area of children from a variety of backgrounds. The area is poorly served, having only ourselves and the local pub as foci for the community. Therefore we determined to become a useful and welcoming place for all the local people to use, and decided to build a community children's library and ICT suite for the use of all the local groups and children.

The school has outlaid £45,000 in order to create a light, airy and modern space within which to place our library. Unfortunately our build went over budget and has left us short of money with which to furnish it with cutting edge technology, creating a facility for the future of Thurleigh and its surrounding areas.

We are looking for sponsors to buy a high quality sponsors' plaque to be displayed within our new library in order to fundraise the remaining monies required. We are seeking donations of £100 plus towards our £10,000 goal.

Many thanks, we hope to be hearing from you,

Yours sincerely,

Ms Verity Kenyon
