

Series Collection

Introduction

Series Collection offers a broad range of products; flexibility, solid ergonomics and good design are at its centre.

From traditional office task seating, managerial and executive, conference, break out and reception seating, Series is the option of affordability, reliability and performance.

Series - combining contemporary design with every workspace seating need.

The 'Series' Guarantee

No other office seating range offers more reassurance and peace of mind than the Series Collection. All products conform to BS5459, the test for strength and stability and come with a five year guarantee.

The Series Collection is manufactured to environmental management systems - ISO14001 and the 'Furniture Industry Sustainability Programme' (F.I.S.P.) working together to minimise waste, reduce energy consumption, and looking at all their working practices for the effective protection of our environment.

Series 2000

S2003 ▲

S2008 ▲

FABRIC
 S2003: Xtreme Plus - Tortuga
 S2008: Xtreme Plus - Solano

S2001 ▼

S2006 ▼

A chair to meet every office need, the traditionally designed Series 2000 stands for flexibility, quality and comfort, whilst not compromising the importance of good ergonomics.

Chairs are offered with a high or medium back; Back Rake or Independent mechanism, and are available with arms or height adjustable arms.

A draughtsman model on glides with a Back Rake mechanism and metal footring is also available.

For meeting rooms and reception areas, the Series 2000 is available in four leg or cantilever versions.

Standard Features

- Medium or High Back
- Height Adjustable Back
- Seat Height Adjustment
- Back Rake or Independent Mechanism
- Arms or Height Adjustable Arms
- Black Moulded Base

S2001/DM ▲

S2008/L ▲

Series 3000

S3005 ▲

S3007 ▲

FABRIC
Xtreme Plus - Anguilla

S3003 ▼

S3001/SY ▼

The Series 3000 offers an ergonomically broader back shape while the importance of good ergonomics remains a key feature of this range.

High or medium back models are available with arms or height adjustable arms. Back Rake or Independent mechanisms can be specified and the introduction of a Synchronised mechanism further enhances this range.

A draughtsman model on glides with a Back Rake mechanism and metal footring is also available.

Series 3000 is also available in a cantilever version.

Standard Features

- Medium or High Back
- Height Adjustable Back
- Seat Height Adjustment
- Back Rake, Independent & Synchro Mechanisms
- Arms or Height Adjustable Arms
- Black Moulded Base

Series 6100

S6103 ▲ S6103 ▲

S6105 ▲

FABRIC
Xtreme Plus - Lobster

S6106 ▼

S6104 ▼

The Series 6100 Collection offers generous sizing for managerial applications. Permanent Contact Back, Independent and Synchronised are available.

Combined with ratchet back height adjustment and an optional Seat Slide, these provide an excellent ergonomic fit. Contoured interior foams provide improved support.

Series 6100 is available in both high and medium back versions with and without arms or height adjustable arms. A cantilever version is also available.

Standard Features

- Medium or High Back
- Height Adjustable Back
- Seat Height Adjustment
- Back Rake, Independent & Synchro Mechanisms
- Arms or Height Adjustable Arms
- Black Moulded Base
